Jim Pope's Pomegranate Tree

Surviving over 100 years

The Jim Pope

Heirloom is Located in
the Panhandle of Florida
in the rural town of Altha

100+ years old

3 Surviving Canes

8' Tall

Compact Growing Habit

Currently the
Only Sour Heirloom in the
Preservation Project

The Jim Pope

Produces Sour Fruit
Medium in Size
Greenish Yellow Hull
Light Red Arils

Tree named by Mrs. Pope
in loving memory of her
husband, Jim Pope.

This exceptional tree was
the Pope family favorite of
the three pomegranate
trees growing over a
century in her back yard.

The fruit was used to make
"The Best Jelly in Town"

Little Boomer's Pomegranate Tree

Little Boomer

- Heirloom of Cross City, Florida
- 50+ years
- Multiple upright canes

Prolific bearer

Little Boomer

Growing on the south-east corner of family home

Reaching over 12' Tall

with a canopy expanding 14' Wide

The Fruit of Little Boomer

- Ripens Late September
- Medium Size
- Red Hull
- Pink-Shoulder Clear Arils
- Excellent Sweet-Tart Flavor
- Medium Hard Seeds

Mouli Pomegranate Tree

Chris of Gainesville, FL named his tree with fond memories of his childhood dog, Mouli, who would spend many an afternoon sitting in the yard under this old pomegranate waiting on Chris to come home from school.

Mouli

- Heirloom of Gainesville, Florida
- 50+ years
- Multiple upright canes

- Grew upward of 15' Tall – 11' Canopy

The Fruit of Mouli

- Ripens September
- Medium Size
- Blushed Red Hull
- Dark Pink Arils
- Tart-Sweet Flavor
- Medium Hard Seeds

Newport St. Marks

Surviving over a century, growing a few yards off the main roadway through town, this tree provided fruit for many families living in the small community. Given the longevity of this variety we felt it critical to preserve the genetics of this amazing old pomegranate tree.

Newport St. Marks

- 100+ year old Heirloom of St. Marks, Florida
- Planted next to a Fig
- Shaded by Oaks it struggles to survive

- Tree is planted next to the stone building which was once the post office for the old town of Newport.

The Fruit of Newport St. Marks

- Ripens October
- Medium Size
- Red Blush Hull
- Peach Crown
- Dark Pink Arils
- Sweet-Tart Flavor
- Medium Hard Seeds

**The
Poh Ulus
Pomegranate
Tree**

Our Cold-Hardy
Sweet-Tart GA Delight

Poh Ulus

- Heirloom of Mauk, Georgia
- 60+ years
- Multiple upright canes

- Mrs Wall relocated it here west of the house 50 years ago by way of chain & Ford tractor.

The Fruit of Poh Ulus

- Ripens October
- Medium Size
- Red Blush Hull
- Dark Pink Arils
- Sweet Flavor
- Edible Med-Hard Seeds

Rosehead Perry

Rosehead Perry

- Heirloom Pomegranate of Perry, Florida
- 75+ years
- Multiple upright canes

Once again, we found that a Fig Tree was planted along side of a Pom Tree

The Fruit of Rosehead Perry

- Ripens October
- Large Size
- Yellow/Blush Hull
- Clear Pink Arils
- Pleasant Tart-Sweet Flavor
- Medium Hard Seeds

**The
Talmadge
Pomegranate
Tree**

Speedy's Family
Heirloom Tree

Talmadge

- Heirloom Pomegranate of Pinetta, Florida
- A cutting 40+ years old from Monticello
- Multiple upright canes

The Fruit of Talmadge

- Ripens October
- Small-Medium Size
- Reddish-color Hull
- Dark Pink Arils
- Tart-Sweet Flavor
- Medium Hard Seeds

We Would Like to Thank ...

- **Dr. Bill Castle**

For his exceptional dedication to the future of Pomegranate in Florida as a sustainable industry. For his guidance, intuition, shared knowledge and his encouragement to continue our quest.

- **Florida Pomegranate Association**

For providing us this opportunity to introduce our mission of preserving the genetics of the old & unique homestead pomegranate varieties found growing across the south.

- **Dr. Gary Vallad, Achala KC, Dr. Zhanao Deng, Zhengfei Guan, Hugh Smith and the extraordinary Pom Team at GREC**

For their countless hours of research and study dedicated to achieving answers to the challenges facing Florida's pomegranate growers.

- **Don Wade & Emory McTeer**

For their valuable insights and sharing their knowledge. We thank them for granting us access to their inspiring pomegranate orchards so we have been able to photograph and catalog a vast quantity of varieties.

- **CREC & Staff**

For their support and generous assistance in making today's event such a fantastic success.

- **And Many Thanks to Each of You for Being Here Today –**

We appreciate your attention & your interest in securing the future of the Pomegranate.
